

## HOW WHITE & CASE BUILT A STATE-OF-THE-ART NEW YORK OFFICE

"White & Case has worked with Scott McFetters and his team from CoreTech for more than twelve years now. The relationship management is more akin to the level of service large law firms are used to receiving from their private banks... You often are not able to properly assess your relationship with leasing firms until after you have gone through several lease cycles over 3-4 years. After 12 plus years with Scott we have a strong degree of trust in our relationship."
